

UCCH Research Fellowship – Call for Applications

The *Hubertus Wald Tumorzentrum - University Cancer Center Hamburg (UCCH)* is once again requesting applications for the **UCCH Research Fellowship for Junior Physician Scientists**. Start time for research projects is January 2017 and the fellowship is provided for up to one year. Eligible are physicians in their 2nd to 5th year of clinical training (Assistenzärztinnen und -ärzte) with a strong interest in experimental cancer research.

A defining element and specific aim of the UCCH Research Fellowship is to strengthen existing and facilitate future collaborations and research links between clinical UCCH departments and experimental UCCH research departments. For that reason the hosting laboratory may not be located in the applicant's current clinical department.

While holding the fellowship position the physician scientist must be fully exempted from all clinical duties and must be committed to work full time in the hosting laboratory.

Funding for the fellowship is provided by three sources: 1/3 by the clinical department where the applicant is currently employed (the "releasing" department), 1/3 by the "receiving" laboratory/department that hosts the applicant to pursue the research project and provides research support and 1/3 by the Deanery of the UKE Medical Faculty.

Application process

Please direct your application (an electronic version per **e-mail** and **4 hard copies** in an application file (Bewerbungsmappe)) to Christine Steinborn (c.steinborn@uke.de), building East 24, ground floor, room 8, University Cancer Center Hamburg.

Deadline for applications is July 29, 2016.

The application **must** include:

- curriculum vitae of the applicant
- name of hosting lab/department and PI
- name of releasing department
- previous relevant research conducted by the applicant (with a focus on work done in the oncology field and preliminary work related to the proposed project, if any)
- research project outline (maximum length: 4 pages) including scientific background and general as well as specific significance of the project, previous work and preliminary data concerning the project, general and specific aims, working plan including methods
- signed and binding declaration of the current clinical department confirming the full release from all clinical obligations of the applicant during the fellowship period and a confirmation to provide the funds for 1/3 of the fellowship
- signed and binding declaration of the hosting lab/department confirming to provide research support and the funds to financing 1/3 of the position

In addition, applicants are required to:

- take part and present their project proposals (short oral presentation) at the **UCCH Research Retreat 2016** (September 23/24 in Jesteburg). Registration deadline for the Research Retreat is July 29. For application please visit our website under www.uke.de/ucch-research-retreat. For your abstract please use "Abstract template for fellowship application talks" (provided for download on the website) and e-mail it to ucch.science.info@uke.de, also by July 29.

Evaluation and selection of applications

Applications will be reviewed by a committee of UCCH senior scientists and the successful candidates will be announced at the UCCH Research Retreat.
